

August 27, 2024

You may have heard that SunPower Corporation filed for Chapter 11 bankruptcy on August 5, 2024, and might therefore be concerned about the warranty coverage for your SunPower solar system.

If you own a SunPower residential solar system, the system may include solar panels made by Maxeon Solar Technologies, an independent company. Rest assured, Maxeon will provide warranty support for SunPower-branded solar panels made by Maxeon as follows:

<b>Installation Date</b>	<b>Installation by</b>	<b>Registration Requirement</b>
Before August 5, 2024	Any installer or dealer approved by SunPower	Please register <a href="#">here</a> by December 31, 2024
On/after August 5, 2024	Maxeon Preferred Partners only	You do not need to use the registration link above. Your Maxeon Preferred Partner will register your warranty with Maxeon and we will send you a warranty certificate.

Maxeon is committed to being the leading provider of the world's finest solar panels and solar energy solutions. Maxeon solar panels are manufactured to the highest quality and reliability standards and have one of the lowest return rates in the industry.

For support issues on your SunPower solar system, please contact your solar installer. Maxeon will work with your installer to support any applicable warranty coverage. Warranty coverage will be outlined in a new Maxeon warranty document, which will be available soon on Maxeon's [website](#).

Thank you for Powering Positive Change.
